CONFIDENTIAL

ANTI-AGING

POWER CAPS

Foundational Energy for Health and Longevity

WHAT IT IS:

A proprietary blend of longevity-focused nutraceuticals to promote both youthful energy and cellular health.

WHY YOU NEED IT:

Important for patients with low energy

Supports patients looking for key longevity enhancements for brain and body

Great for patients wanting cellular rejuvenation

Treats patients wanting to restore and maintain healthy skin, hair and musculature

Good for patients needing metabolic support for weight loss

Targets patients with elevated levels of dementia-related inflammatory brain proteins, such as PTAU, NFL and Beta-Amyloid.

HOW IT WORKS:

Power Caps harnesses a blend of four potent natural compounds-Alpha-Ketoglutarate (AKG), Urolithin A, Nicotinamide Riboside (NR), and Spermidine-t- target the root causes of fatigue and aging at the cellular level. Individually, each ingredient supports key processes like energy...

SENEX

Neutralizing 'Zombies' and Respiratory Viruses

WHAT IT IS:

A proprietary blend of vitamins and herbs, including an 'uber' absorbable, maximal strength, anti-zombie cell, anti-viral form of Quercetin

WHY YOU NEED IT:

Important for patients with respiratory, common-cold viruses and COVID

Great for patients with seasonal and chronic allergies

Good for patients with nasal congestion, lung congestion, itchy eyes, sneezing

Important for patients looking to improve athletic performance and recovery

Targets patients wanting anti-aging support to counteract pro-inflammatory, senescent, 'zombie' cells which increase the risk of disease and degeneration

Good for patients struggling with chronic fatigue and poor sleep quality

Great for patients with allergic eye symptoms and eye infections of the conjunctiva and cornea

HOW IT HELPS: Senex is a best-in-class, proprietary blend of vitamins and herbs that...

BENECARE

Turmeric, as Nature intended
WHAT IT IS:

A full-spectrum extract of the turmeric root, providing maximal clinical efficacy.

WHY YOU NEED IT:

Targets patients with intestinal conditions: Irritable Bowel Syndrome (IBS), Dysbiosis, SIBO, Inflammatory Bowel Disease (including colitis and Crohn's), and bowel infections/inflammation

Important for patients with inflammatory conditions like arthritis, acute and chronic pain, chronic infections, cancer, and allergic responses, including Mast Cell Activation Syndrome (MCAS), Asthma and chronic sinus allergies.

Good for enhancing gut microbiome diversity, the birthright of every human

Great for patients needing exceptionally potent antioxidant protection

Supports patients requiring an enhanced and balanced immune system, such as those with arthritis, chronic skin rashes, and cancer

Targets patients with cognitive concerns and impairments

Important...

TIMESTOP

TimeStop
WHAT IT IS:

L-ergothioneine (L-ET), an amino acid found in mushrooms and bacterial fermentation with antiaging antioxidant and cytoprotective properties

WHY YOU NEED IT:

Important for patients interested in AntiAging: helps protect chromosomal telomeres and reduce DNA damage, both hallmarks of human aging

Supports neurological and cognitive health

Provides powerful antioxidant support by enhancing Nrf2-mediated gene activity

Supports healthy glutathione levels, a key molecule in detoxification and human health

Boosts mitochondrial function for substantially improved energy production

Targets patients with depression and anxiety

Good for patients who wake frequently during sleep

HOW IT HELPS:

L-ET is a critically important antioxidant and cell protector that cannot be synthesized by humans. We can only get L-ET through our diets or supplementation. L-ET is found primarily in...
