WHY YOU NEED IT:

- Wakes the immune system to support patients fighting Lyme disease and related infections
- All natural, no side effects

HOW IT WORKS:

Many patients with Lyme disease suffer with the infection for years. Part of the reason infections can become chronic is that the bugs have a neat trick: they partially disable the immune system. In doing so, the Lyme spirochetes can confuse and disarm your immune system, allowing the infection to linger.

The Lyme bugs do not want to kill you, just to feed off your energy grid. Taking the Lyme Nosode has the effect of waking up the immune system, turning the tide of the disease in the patients' favor. This potent homeopathic was created by literally dragging a blanket along the forest floor to collect hundreds of different ticks. These...
