NERVE HEALTH

FOOT LOOSE

TimeStop

WHAT IT IS:

A medical food that resolves the nutritional impairments that cause peripheral neuropathy.

WHY YOU NEED IT:

- Important for patients with symptoms of peripheral neuropathy including numbness, tingling, burning, and pain in the feet and fingers.
- Targets patient with elevated Homocysteine levels and MTHFR gene defects
- Great for patients with small vessel disease anywhere in the body

HOW IT HELPS:

Footloose is a proprietary blend of high potency, bio-active B vitamins that has been shown in clinical trials to support the health of peripheral nerves. Nerves are made of very delicate tissues that are stretched over comparatively vast distances in our bodies. For example, the sciatic nerve that runs from your lower back to your big toe is the longest single structure in your body. The supply chain of missioncritical nutrients has to be delivered through miles...
