DREAMY

WHAT IT IS:

A natural, non-drug herbal blend to support healthy sleep

WHY YOU NEED IT:

Important for patients with episodic or chronic insomnia
Targets patients who have trouble falling or staying asleep
Great for patients who do not want dependency-creating prescription drugs
Non-addictive, non-habit forming

HOW IT HELPS:

The latest scientific research confirms the critical importance of healthy sleep. Sleep is the body's way of physiologically and psychologically resetting itself.

To maintain and promote reliable health, sufficient REM sleep (the deep, refreshing, dreamy state) is not optional, but absolutely required. Few things will age you faster than sleep deprivation.

So, exactly how much sleep do you need? The latest research suggests that men need 7.8 hours and women need 7.6 hours of sleep each and every night. No exceptions.

Patients tell me all the time that they 'only...

ONCODOZIN'

Say 'Goodnight' to Cancer

WHAT IT IS:

- High potency liposomal melatonin

WHY YOU NEED IT:

- Important for patients with cancer
- Targets patients with chronic insomnia
- Good for patients with Irritable Bowel Syndrome, Endometriosis, Jet Lag, arthritis, and Alzheimer's disease
- Powerful brain detoxifier, protector
- Most powerful antioxidant ever studied

HOW IT HELPS:

Melatonin is one of the oldest and most ubiquitous molecules on the planet. It is manufactured by every animal, plant and nearly every microbe.

If something is alive, chances are that it is making melatonin.

Melatonin is so important because it protects organisms from the destructive harshness of oxidation, a process inherent in living with atmospheric oxygen. Melatonin also tells all life on Earth whether it is daytime or nighttime.

When darkness comes, every living thing starts making...

MELASNORIN'

MelaSnorin'

Fast, Reliable for Sleep and Health

WHAT IT IS:

- Liposomal melatonin in a liquid spray

WHY YOU NEED IT:

- Important for patients not getting eight hours of sleep
- Targets patients with chronic insomnia
- Good for patients with Irritable Bowel Syndrome, Endometriosis, Jet Lag, arthritis, and Alzheimer's disease
- Powerful brain detoxifier, protector
- Most powerful antioxidant ever studied

HOW IT HELPS:

Melatonin is one of the oldest and most ubiquitous molecules on the planet. It is manufactured by every animal, plant and nearly every microbe.

If something is alive, chances are that it is making melatonin.

Melatonin is so important because it protects organisms from the destructive harshness of oxidation, a process inherent in living with atmospheric oxygen. Melatonin also tells all life on Earth whether it is daytime or nighttime.

CHILL PILL

CHILL PILL

The Antidote for Modern Living

WHAT IT IS:

- A fast-acting, chewable tablet that supports a calm, relaxed state of mind

WHY YOU NEED IT:

- Important for patients experiencing stress, anxiety and depression
- Perfect for patients with addictions and cravings, like sugar and cigarettes
- Targets patients with insomnia and poor sleep habits
- Great for patients needing more focus, mental clarity and concentration
- Good for athletes needing a competitive edge in stressful competition
- Supports patients with High Blood Pressure

HOW IT HELPS:

The Chill Pill contains a naturally occurring amino acid in the brain called GABA. As a key neurotransmitter, GABA works as an important counter balance against stress hormones that are released in the brain when we are over stimulated. When the brain is in stress and panic mode, humans experience a markedly diminished...

DESTRESS

DeStress

A Dose of Relaxation

WHAT IT IS:

- A milk protein extract that supports patients looking for relaxation and healthy sleep

WHY YOU NEED IT:

- Important for patients with stress-related sleep problems
- Indicated for patients with anxiety and stress during the day
- Targets patients looking to block the effects of stress and anxiety

HOW IT HELPS:

DeStress is the natural equivalent of a bottle of warm milk a mother would give a crying infant to make him feel better when the baby was upset, tired or restless. The main ingredient in DeStress is a milk protein extract that has been clinically studied to support anxious, stressed-out patients. DeStress has also been sought by patients looking to lower blood pressure and heart rate in the setting of stress-related high blood pressure.

Unlike prescription anxiety and depression medications, DeStress will not make you...

EASY-DOES-IT

EASY-DOES-IT

Taking 'Easy' to the Next Level

WHAT IT IS:

- Supports patients with insomnia, weight loss, stress, depression, fibromyalgia
- Important for patients needing to boost serotonin, the "feel good" hormone
- Natural, non-habit forming

WHY YOU NEED IT:

Easy-Does-It is made from an extract of the African seed pod of Griffonia and contains 5-HTP (5-hydroxytryptophan). Our bodies can turn 5-HTP into serotonin which is known as the "feel good " hormone because it is one of three key hormones that help us feel happy, satisfied, full, sleepy, and peaceful.

Lately, the whole world seems to have a deficiency of this hormone.

Some people are just born with a natural deficiency of this hormone and others may "run out" of serotonin due to stress and burn out. Easy-Does-It targets patients needing to restore a normal level of serotonin in the body and support...

MELATONIN DISSOLVING TABLET

Fall Asleep Faster, Stay Asleep Longer

Melatonin is made by the tiny pineal gland located in the back of the brain. The pineal gland secretes melatonin at night to help us fall asleep and stay asleep. As we age, the pineal gland secretes less and less melatonin, making it more difficult for us to enjoy the benefits of a full night's rest.

And nothing will make you feel your age (or older!) than a chronic lack of 7 ½ - 8 hours of restorative sleep.

If you have trouble falling asleep, consider using the instant release melatonin that dissolves under the tongue. If you cannot stay asleep, consider using the extended release melatonin that allows the continual release of small doses of melatonin to keep you asleep.

Melatonin also helps to regulate our internal clocks that tell us when it is supposed to be day and when it is supposed to be night. If you fly across two or more time zones in a day, your body clock will be out of sync with the new time zone, leading to jet lag....
