# Essentia-HP

## For stomach pain and related infections

### WHAT IT IS:

- A blend of herbs and nutrients for patients looking for antimicrobial and restorative properties

### WHY YOU NEED IT:

- Important for patients with Helicobacter pylori infection
- Quick release capsule ensures each dose stays where it is needed most: your stomach
- Targets patients with occasional heartburn, reflux and gastritis
- Good for healthy stomach function
- All natural, non-GMO

### HOW IT HELPS:

Nobody likes a stomach ache. If your stomach hurts because of food poisoning, Helicobacter pylori infection, or irritation from drugs you've taken, then Essentia-HP can provide the needed support to get you feeling back on track.

Essentia-HP is a dual-action formula that provides both natural antibiotics and soothing herbs. This two-in-one blend insures that you will have the correct support when you most need it.

The traditional remedies of mastic gum and cabbage juice have been included in Essentia-HP to support anti-Helicobacter pylori therapies while targeting damaged and eroded intestinal tissues.

A very special and potent extract of licorice as well as zinc carnosine rounds out the formula with impressive antimicrobial and restorative properties.

Taken together, these 'fantastic' four ingredients of Essentia-HP produce results that are reliable.

When it feels like your stomach has been scraped, scratched, ravaged and beaten, Essentia-HP should be the product you reach for first.

**Usual dosage:** Take two capsules, preferably on an empty stomach, two to three times daily.
