Lyme Nosode

WHAT IT IS:

- A homeopathic supplement to support patients with Lyme disease

WHY YOU NEED IT:

- Wakes the immune system to support patients fighting Lyme disease and related infections
- All natural, no side effects

HOW IT WORKS:

Many patients with Lyme disease suffer with the infection for years. Part of the reason infections can become chronic is that the bugs have a neat trick: they partially disable the immune system. In doing so, the Lyme spirochetes can confuse and disarm your immune system, allowing the infection to linger.

The Lyme bugs do not want to kill you, just to feed off your energy grid.

Taking the Lyme Nosode has the effect of waking up the immune system, turning the tide of the disease in the patients' favor. This potent homeopathic was created by literally dragging a blanket along the forest floor to collect hundreds of different ticks. These captured ticks were then blended into a mulch, and the Lyme DNA was extracted and prepared in a sterile and homeopathic fashion into the Lyme Nosode supplement.

Usual dosage: Take 10 drops of Lyme Nosode on an empty stomach twice daily. Wait three minutes before taking any other homeopathic remedy.
