Male +

Balance and support for male hormones

WHAT IT IS:

- Homeopathic balance for symptoms associated with male hormones

WHY YOU NEED IT:

- Safe for all ages and men, including patients with male cancers
- Targets men who need hormone balancing without an Rx
- Important for patients with symptoms related to hormone deficiencies
- Supports men using Rx hormone therapies who need more balancing
- Great for sensitive patients who do not tolerate side effects

HOW IT HELPS:

Male hormone irregularities and deficiencies affect men of all ages, whether you are a teenager or a grandpa. Not all men are candidates for or respond to traditional prescription hormone therapy. Yet, the symptoms of male hormone imbalance can be irritating or life altering. These symptoms include feeling sad, tired, grumpy, losing initiative or drive, lower sex drive, reduced sexual performance, and loss of power and muscle mass.

Made by Immunexx in Canada, **Male +** is a safe, homeopathic formula to help men experience a more balanced male reproductive hormonal system, without using prescriptive doses of hormones.

As a homeopathic, **Male +** can be used by all men, including those who have had male cancers, such as prostate. **Male +** is a complex formula that seeks to balance male hormones involving the pituitary, thymus, adrenals, pineal, hypothalamus, thyroid, pancreas, prostate, and sex glands.

Viatrexx homeopathic remedies focus on rebalancing health by improving the delivery of oxygen and nutrients to starved cells, draining and detoxifying bloated tissues and organs, and providing regenerative support to help the body create a new, healthier you. Viatrexx therapies are organic, biodynamic, and all natural.

Male + can be used as a stand-alone therapy or combined with other herbal or prescriptive hormonal therapies.
