# Moby Dick

## A Fish (Oil) Tale

### WHAT IT IS:

- The World's first Ultra-Premium fish oil supplement

### WHY YOU NEED IT:

- Supports Cardiovascular Health and Healthy Mental Functioning
- Good for patients with high blood pressure
- Important for healthy blood sugar and insulin metabolism
- Targets patients with chronic inflammation
- Good for patients with low mood and ADD
- 3X better absorbed than leading fish oil brands
- 3X higher blood levels than leading fish oil brands
- First, only absorption-ready fish oil, requiring no digestion
- No 'fish burps'
- 1 part-per-billion purification (1,000X more pure than leading brands)
- Non-GMO, Gluten-Free, Soy-Free, Dairy-Free, Shellfish-Free

### HOW IT HELPS:

Fish oil remains an important, core supplement because of its importance to human health. Thousands of research studies confirm the benefits of fish oil supplementation for high cholesterol, heart disease, stroke, osteo-arthritis, Rheumatoid arthritis, mood disorders, Attention Deficit Disorder, dry eyes, and osteoporosis.

To work best, fish oil has to be purified of any and all toxins, and it has to easily get into your blood stream.

The purity of most 'big box' store brands of fish oil is uncertified or is purified to only toxic 'parts per million.' Many brands also use artificial preservatives, artificial fillers, and extract their product from fish that have already gone 'bad.'

When we test patients' blood levels of fish oil who are using 'big box' brands, we often see disappointing omega-3 levels and insufficient effectiveness on cholesterol, inflammation, and blood sugar results. Their products are cheap because they are cheaply made. They simply do not provide the power needed to improve both test results and how patients feel.

**Moby Dick** is the World's first ultra-premium fish oil because it is the most purified, absorbable, environmentally responsible, and effective fish oil ever created. Using advanced technology, Moby Dick omega-3 fats are purified to one part per billion, more than 1,000X cleaner than other fish oil brands.

Unlike any other fish oil (prescription or non-prescription), **Moby Dick** has been processed to a refinement of such quality that it requires no digestive assistance to be completely and effectively absorbed. This allows **Moby Dick** to boost omega-3 blood levels three times higher than 'big box' brands and last three times longer in the blood stream. Higher blood levels that last longer translates to maximal therapeutic effectiveness.

The unique purity of **Moby Dick** also allows at least twice the omega-3 product in the same size capsule. That means you would have to take two or three 'big box' brand fish oil capsules to equal the amount of omega-3 found in just one capsule of **Moby Dick**.

And the 'big box' brand would still not be as clean or absorbable as **Moby Dick**.

Remember the old truism: price is what you pay; value is what you get. No other fish oil can deliver the value of **Moby Dick**, the World's first and only ultra-premium fish oil whose potency you can see working and feel working.

**Usual dosage:** take one to two capsules daily as needed to achieve your health goals.
