Chesty

Wildly Effective

WHAT IT IS:

Natural cough remedy made from wild crafted, organic herbs

WHY YOU NEED IT:

- Important for patients needing to soothe cold and flu symptoms
- Good for patients with sore throats and coughs
- Great for patients looking for powerful, natural antibiotics
- Non-habit forming (unless you have a really, really addictive personality)

HOW IT HELPS:

Chesty is an all-natural cough syrup made from organic and ethically harvested wild herbs. Unlike their commercially grown counterparts, wild plants contain more potent herbal properties because the plants themselves need these natural molecules to survive. **Chesty** contains a proprietary blend of cherished herbs known for their broad spectrum, natural antibiotic activity.

Other herbal extracts in this unique cough supplement are long sought after for their reputation as anti-inflammatories for the delicate mucosal tissues of the throat, nose, sinuses and lungs.

This unique remedy will quickly become your best friend during Cold&Flu season or any time you need to get something 'off your chest.'

Powerful and wild: two of the best features for effective natural remedies...and both are inside every bottle of **Chesty**!

Usual dosage: Take $\frac{1}{2}$ - 1 teaspoon every 2-3 hours as needed for respiratory congestion.
