MammaWanna

The Science of Passion

WHAT IT IS:

- Herbal support for healthy female libido and hormonal balance

WHY YOU NEED IT:

- Important for women with low libido and sexual responsiveness
- Targets women with low testosterone levels
- Great for women who need male hormonal support
- All natural, herbal formula
- No hormones

HOW IT HELPS:

Loss of sexual desire is very common among women of all ages, and some 25% of women report experiencing this drop at some point in their lives. MammaWanna is an all-natural formula that has been thoughtfully formulated to support women's physical and sexual health. While deeply rooted in herbal traditions, MammaWanna also features plant extracts that have published clinical research to support their safety and efficacy.

MammaWanna contains the SouthEast Asian shrubby tree, *Eurycoma longifolia*, which can take up to 25 years to mature before being used as a medicinal. Herbalists have long recommended therapy with this plant for the enhancement of healthy sexual energy, strength, vitality, athletic performance, and weight loss. This is an herb that can safely benefit both men and women.

Specific extracts of the Mediterranean plant, fenugreek, are another important component of the MammaWanna formula. Traditionally, fenugreek has been recommended for GERD, constipation, PCOS, high cholesterol, athletic performance, infertility, thyroid disorders, and low sexual energy. When properly manufactured,

fenugreek can support healthy levels of estrogen in women, help alleviate normal symptoms of menopause, and promote a woman's healthy sexual vitality and desire. Multiple clinical trials have safely tested this herbal extract to be effective.

MammaWanna also contains a concentrated extract of Damiana. This wild, Central American shrub has been recommended for centuries in the support of patients with headaches, low mood, PMS, menopause, sexual dysfunction, weight loss, and athletic performance. Our formula contains a healthy dose of Damiana extract to boost effectiveness of MammaWanna.

Native to the Amazon region, Muira puama is another classic herbal medicine that is traditionally recommended for sexual disorders, athletic performance, stomach upset, menstrual disorders, and as a general health tonic. As an integral component of our formula, Muira brings the benefits of this powerhouse South American herb to MammaWanna.

Stretching over four continents and many centuries, MammaWanna contains the modern-day herbal power to deliver reliable results. MammaWanna has been specifically designed for women, but can be used safely and effectively by men as well.

Usual Dosage: Take two (2) capsules, one to two times daily, preferably on an empty stomach.
