# TOXICLEAR

*Bound for Greatness*

## WHAT IT IS:

- An advanced nutritional supplement containing three powerful natural toxin binders: Chlorella, Zeolite and Activated Charcoal.

## WHY YOU NEED IT:

- Important for patients needing a comprehensive detox solution
- Targets patients wanting to enhance digestive health
- Supports patients looking to boost energy and mental clarity
- Great for patients benefiting from boosting immune health
- Good for people looking to reduce toxic burdens and choose a healthier lifestyle

## HOW IT HELPS:

It is an undisputed fact that we live in an increasingly toxic environment. From microplastics, mold biotoxin, heavy metal exposures, to forever chemicals, human health is under daily assault that exceeds our natural detoxication capacities.

While the human body has some inherent detox functionality, our collective DNA was born at a time before modern chemistry flooded Planet Earth with an overwhelming array and volume of potentially dangerous pollutants. Simply put, our physiology is no match for this chemical assault and human suffering has increased since the relentless exposure and of this toxic burden.

*be well*

Analagously, think of the design and capacity of your car's windshield wipers. These were designed to clear the windshield of water, road dirt, and smashed bugs. And for that purpose, windshield wipers work quiet well. However, if you poured a can of paint onto a windshield and hoped to wipe your windshield clear, you would quickly appreciate their limitations.

Enter Toxiclear: this advanced nutritional supplement combines three powerful natural binders—Chlorella, Zeolite, and Activated Charcoal—to support detoxification, digestive health, and overall vitality.

Toxiclear offers comprehensive detoxification—

- Activated Charcoal: Binds to toxins, chemicals, and impurities in the digestive tract to help flush them out safely.
- Zeolite: Captures heavy metals (such as lead, mercury, and arsenic) and pollutants using its cage-like structure, ensuring safe removal without depleting essential nutrients.
- Chlorella: Binds to heavy metals and toxins while supporting liver function and natural detox pathways.

Toxiclear offers enhanced Digestive Health—

- Removes harmful substances from the gut, alleviating bloating, gas, and discomfort.
- Promotes a balanced gut microbiota for better nutrient absorption and immune support.

Toxiclear offers Boosted Energy and Mental Clarity—

- Detoxification reduces oxidative stress and inflammation, leading to improved energy levels and mental focus.
- Supports cellular repair and vitality by eliminating environmental toxins.

Toxiclear offers Immune System Support—

- Removes toxins that burden the immune system, allowing it to function more efficiently.
- Chlorella and zeolite enhance antioxidant defenses and inflammatory balance.

Toxiclear offers Mold and Mycotoxin detoxification—

- **Activated Charcoal and Zeolite:** Bind to mycotoxins from mold exposure, aiding in their excretion.
- **Chlorella:** Neutralizes molds and supports detox pathways.

Toxiclear is an advanced synergistic formula in which each of the ingredients complements the others for maximum detoxification effectiveness. The versatile benefits of Toxiclear include improved skin health, gut health, brain health, and overall well-being.

Living and thriving in a toxic environment requires the increased toxin clearing that is found in Toxiclear's thoughtful and effective formulation.

Toxiclear can also bind to medications and supplements, and as such, should be taken ideally between meals for maximum beneficial effects.

**Usual dosage:** Take 1-2 caps of Toxiclear twice daily between meals on an empty stomach. Take Toxiclear separately from medications and supplements.
